

On 1/20/2019 Steve Grasha under his false ID Steve Davis, posted this on my Jeff Bowman Former MSWD Director FB page. He also then sent it via FB messenger to those who responded to my video challenging is stated occupation / title of "Technical Water Systems Engineer." By the next day this post on my FB page was deleted.

"The Network" A known pedophile ring operating out of Desert Hot Springs is known by Authorities and the community rejects this horrific behavior in all forms.

Steve Grasha was challenged at this weeks board meeting by Jeff Bowman, a former board member who was soundly defeated in the election for suggesting he might be a "pervert" during the election. We don't regret raising the question that being photographed naked with people presented as child brides and giving the appearance of children and promoting yourself as an upstanding public official as being anything less than disgraceful behavior.

The former director used a statement by our Desert Hot Springs police chief to defend his disgusting actions. We have remained silent on this issue because of the gravity of the ongoing investigation involving one of Police Chief Dale Mondray's officers and another already convicted Desert Hot Springs Police Officer imprisoned for the remainder of his natural life for raping minor children in the Desert Hot Springs Police Department and a nude hotel in Desert Hot Springs thought to be Jeff Bowmans nude hotel, while on duty and in uniform.

In an effort allude arrest and prosecution, Dennis Decker, a Desert Hot Springs Police Officer murdered Dave McGowen and his original District Attorney's Investigators entire family, including his wife, mother-in-law and all three children.

McGowan's last case started with investigating four Desert Hot Springs City Officials and Police officers for allegedly filing a false traffic report.

But his investigation uncovered more potential crimes.

Officer Jacques Million was accused of molesting a teenage girl on video tape at a nude resort thought to be Bowmans, in Desert Hot Springs known as a hotbed of child sex traffickers and a network of pedophiles referred to by Federal authorities as the "Network".

Another officer and friend of Bowmans was investigated for stealing drugs and guns from the Desert Hot Springs evidence locker.

And an animal control officer and friend of Bowmans "Network" was accused of working with a Mexican drug cartel dogfighting ring.

Multiple electronic communications link all of these cases and individuals, unfortunately not enough evidence to arrest, prosecute and convict.

The voters did the right thing by firing Jeff Bowman, a disgusting pervert, from the water board. "The Network" A known pedophile ring operating out of Desert Hot Springs is known by Authorities and the community rejects this horrific behavior in all forms.
